SECTION 1

Executive Summary

Rasmi Logistic Service delivered the media services and event management for the handover of solar fridges and milk storage containers to women milk vendors across ten districts in Somalia.

The handover ceremonies formed part of the HoA DRIVE Project, managed by the Project Implementation Unit (PIU) of the Federal Government of Somalia's Ministry of Finance, with support from the World Bank. Our role was to make each ceremony happen on the ground: documenting it, moving our teams and equipment safely, hosting participants, and handling the fridges and containers.

What we delivered

- **Media coverage** of the handover ceremony in every one of the ten districts.
- **Transport and logistics** for our teams, using vehicle rental or ground transport depending on the district.
- **Catering** for each ceremony.
- **Equipment handling** for 100 fridges and milk storage containers in each district, 1,000 in total.

Reach at a glance

Region	Districts	Fridges handled
Hirshabelle	Jowhar, Beledweyne, Balcad	300
South West	Afgoye, Baidoa	200
Jubaland	Kismayo	100
Galmudug	Dhusamareeb, Cadaado, Galkacyo	300
Banadir	Mogadishu	100
Total	**10 districts**	**1,000**

SECTION 2

Background & Scope of Services

The HoA DRIVE Project supports livelihoods in Somalia. Solar-powered fridges and milk storage containers give women milk vendors a way to keep milk fresh, reduce spoilage and sell with more confidence. Public handover ceremonies recognise the beneficiaries, show the project's results to communities and partners, and create a visible record of the support provided.

Our four service lines

1

Media coverage

Professional coverage of the ceremony in each district, capturing the handover, the beneficiaries and the official proceedings for the project record.

2

Transport & logistics

Vehicle rental or ground transport for our teams and materials, matched to each district's distance and access.

3

Catering

Refreshments for the ceremony, so that participants and guests were hosted comfortably throughout.

4

Equipment handling

Careful handling of 100 fridges and milk storage containers per district: unloading, positioning and staging for handover.

How a district ceremony ran

1. **Prepare**
   Confirm the district plan, vehicle or transport option, media team and catering.
2. **Mobilise**
   Move the team and materials to the district and set up the venue.
3. **Stage the equipment**
   Receive, handle and arrange the 100 fridges and containers for the handover.
4. **Cover the ceremony**
   Capture the proceedings and the beneficiaries receiving their equipment.
5. **Close and report**
   Wrap up on site, secure the media files and record the outcome.

SECTION 3

Delivery by District

Every district received the full service package. The transport arrangement differed by district, as shown below.

#	District	Region	Media	Transport	Catering	Fridges	Date
1	Jowhar	Hirshabelle	✔	Vehicle rental	✔	100	[date]
2	Beledweyne	Hirshabelle	✔	Vehicle rental	✔	100	[date]
3	Balcad	Hirshabelle	✔	Ground transport	✔	100	[date]
4	Afgoye	South West	✔	Ground transport	✔	100	[date]
5	Baidoa	South West	✔	Vehicle rental	✔	100	[date]
6	Kismayo	Jubaland	✔	Vehicle rental	✔	100	[date]
7	Dhusamareeb	Galmudug	✔	Vehicle rental	✔	100	[date]
8	Cadaado	Galmudug	✔	Ground transport	✔	100	[date]
9	Galkacyo	Galmudug	✔	Vehicle rental	✔	100	[date]
10	Mogadishu	Banadir	✔	Vehicle rental	✔	100	[date]
Total						**1,000**

SECTION 4

Logistics & Coordination

Ten ceremonies in five regions meant ten separate field operations. We planned each district as its own deployment, with the same standards of service in all of them.

Vehicle rental

Used in seven districts: Jowhar, Beledweyne, Baidoa, Kismayo, Dhusamareeb, Galkacyo and Mogadishu. The vehicle stayed with the team for the duration of the ceremony work.

Ground transport

Used in three districts: Balcad, Afgoye and Cadaado, where a transport arrangement for the day suited the location.

Coordination approach

- One plan per district covering media, transport, catering and equipment handling.
- Equipment handling planned around the 100-fridge allocation per district.
- Regular contact with the PIU so that each ceremony matched the project's expectations.
- The same service package in every region, so each community had an equal experience.

SECTION 5

Challenges & How We Managed Them

Delivering in this many locations at once brings practical challenges. These are the main ones we planned for.

Challenge	How we managed it
Distance between districts	Chose vehicle rental or ground transport per district, and scheduled travel so that teams arrived in time to set up.
Security and access	Planned movements with the project team and local partners, and kept travel and set-up within safe working hours.
Handling 100 fridges per site	Assigned a handling plan to each site so that equipment was received, positioned and staged without damage.
Consistent quality across 10 sites	Used the same service package and checklist in every district.

Team to confirm: [Replace or add the actual challenges faced in the field]

SECTION 6

Lessons Learned & Recommendations

What worked well

- A standard service package for every district.
- Planning each ceremony as its own deployment.
- Pairing media coverage with equipment handling in one team.

For future handovers

- Share a district schedule with the PIU early.
- Confirm transport mode and venue per district in advance.
- Agree the media outputs and deadlines with the client before the first ceremony.

SECTION 7

Conclusion

Ten districts. Five regions. One thousand fridges handed over to women milk vendors.

Rasmi Logistic Service is proud to have supported the PIU and the HoA DRIVE Project in bringing these handover ceremonies to communities across Somalia. Each ceremony marked a practical step towards safer milk storage, less spoilage and stronger incomes for the women who depend on milk sales.

We thank the Project Implementation Unit, Ministry of Finance, and the project's partners for the trust placed in us, and we look forward to supporting future work.
